Robert gave an update on the JAKES trailer issue from Edgefield. Carol Frampton, in house attorney, reported that Edgefield is willing to add all 7 of our trailers (5 JAKES, 2 RDs) to their vehicle policy as a secondary policy. They stressed that all events must be registered if the trailer is used. We can no longer loan the trailers out to outside groups. The ranges are still available from Daisy at the rate of \$1600 each. The grant from Midway USA has been expended and there is no longer financial support for the program. There was an overwhelming response that we want to continue to support the program. The Leadership Conference should include a session on setup and care.

Museum - Brent reported that August 24 is a possible date for a work day at the museum. \$5000 was approved at the last Board meeting for the display.

Frogman event – Ted is looking for a venue. Robert spoke with the NC Bow Hunters Association and they are interested in helping with this event.
